The use of technological resources, including but not limited to, eReaders, cell phones, mp3 players, computers, mobile devices, wifi, WAN/LAN, intranet, cameras, is encouraged to support and enhance educational goals and objectives. Using technological resources is a privilege, not a right.

Each school must provide written protocol for the terms and conditions for use of technological resources. This protocol shall include stipulations for using personal devices/programs/applications that students and faculty/staff may bring to school or school sponsored events/activities. Parents, students, faculty and staff must acknowledge in writing that they have received the protocol. In addition, in order to assure child safety and protection, schools shall maintain filtering software on all school-issued devices used by and/or accessible to students.

Anyone who uses technological resources will participate in a discussion with the appropriate instructor/administrator pertaining to the proper use. The administrators and teachers will deem what is appropriate use, and their decision is final. The school may deny, revoke, or suspend specific user access. In addition, all students will be instructed about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyberbullying awareness and response. The school will develop a curriculum in compliance with the Children's Internet Protection Act, as well as Catholic teachings.

Schools, even those who have access to other assistance, are welcome to contact Amy Herbert, Research and Data Specialist for the Archdiocesan Office of Catholic Schools for technical support.
